**METHOD AND APPARATUS FOR DISPLAYING A KEY PAD
ARRANGEMENT ON A SELECTIVE CALL RECEIVER**

Abstract of the Disclosure

5

A selective call receiver (5) comprises receiver
circuitry (14) for receiving a message, a display (22) for
displaying a key pad arrangement (70) and for displaying
the received message in a message display area (68). A
10 microcomputer (20) and user controls (12) interact with
the key pad arrangement (70) to modify the received
message. A method of displaying the received message
comprises the steps of displaying the key pad arrangement
(70) and interacting with the key pad arrangement (70) so
15 as to modify the message or add a new message.
